

Dr. Elina Castro

Hello

My name is Elina Castro and I am a dentist with special interest in children's oral health and treatment of malalignments in early dentition that can affect a child's breathing or are a result of breathing issues your child may experience.

DO YOU KNOW THAT MALOCCLUSION CAN AFFECT

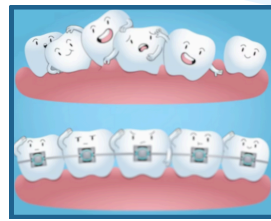

- * SPEECH
- * ORAL HEALTH
- * BREATHING
- * SLEEP
- * BEHAVIOR
- * FEEDING
- * DENTOFACIAL GROWTH AND DEVELOPMENT
- * HEAD & BODY POSTURE
- * AND A LOT MORE.

WHAT CAN WE DO TO HELP?

With specialized training in this area and over 10 years of experience, I take pride in providing expert services in malocclusion treatments, including:

Dental Orthopaedics
preventing or correcting
irregularities of the
teeth/jaws

Orthodontic Solutions
such as braces or Invisalign
to correct teeth alignment
issues tailored to suit your
child's unique needs

My goal is to provide early treatment of dental malocclusions to guide proper dentofacial growth and development as well as to help to correct abnormal oral muscle functions.
